FOREWORD

This most genuine dispersal sale of the entire herd on behalf of the Plant family results from their very difficult decision to cease dairy farming at Stile House Farm.

The sale comprises 206 Cows and Heifers In-milk and In-calf, 3 In-calf and Served Heifers together with 2 Youngstock.

Cows have been milked at Stile House for 41 years with John himself having milked cows for 64 years. John together with Louise and the rest of the family have built the herd to what it is today with prudent purchases from Leek, both John and Louise having an excellent eye for potential, along with their own homebred stock.

Many breeds feature however the common trait through them all is good bags, feet and milkiess. The photograph on the cover of the catalogue is testament to this and shows the breadth of quality on offer.

The milking herd is youthful comprising 76 Heifers, 55 2nd, 32 3rd and 24 4th Calvers.

The herd is cubicle housed and milked via a herringbone parlour with management based on grass silage, brewers grains and blend on a semi TMR basis with concentrates fed in the parlour. Louise's attention to detail and care for her stock is evident in the results being achieved. Costings show that the herd is averaging a superb

9147kg 4.13%F 3.31%P cc165

and is currently averaging 29kg daily.

This is a most genuine dispersal sale that will mark the end of an era and can be thoroughly recommended to all commercial buyers with attendance at Leek a must.
