FOREWORD

This most genuine dispersal sale of the entire Pedigree Tyringham Herd of Jerseys results from the decision by the Robeson family to cease active farming at Fences Farm, a machinery sale having also been set for the new year.

The Tyringham Herd of Jerseys was established back in 1955 by the lady of the house, Renee Robeson, who was a true fanatic of the breed. Most recently, the herd has been managed by Neil Eggleton who has in essence run the unit at Fences Farm along with a few members of staff for over 20 years.

The sale comprises 88 Cows and Heifers In-milk and In-calf, 17 In-calf Heifers and 39 Youngstock.

The herd is loose housed and milked via a 14/28 swingover parlour with management based on maize and grass silage fed on a TMR basis with concentrates fed in the parlour. The herd average from NMR shows:

5227kg 5.23%F 3.85%P

With the latest bulk sample of **5.59%F 3.93%P cc223**.

The sale of this pedigree Jersey herd provides a unique opportunity to buy some genuinely improving cows. So few Jersey Herds come onto the open market that this is surely a chance not to be missed by any fan of the breed.
