FOREWORD

This most genuine dispersal sale of the entire milking herd on behalf of the Bentley family results from their decision to cease milk production entirely at Ewelme Farm.

The sale comprises 115 Cows and Heifers In-milk and In-calf, 49 In-calf Heifers and 65 Youngstock together with a Pedigree Aberdeen Angus Stock Bull.

Breeding policy has always been to use good nominated bulls and in more recent times there has been more of a bias towards the British Friesian line which has produced a herd of true Holstein Friesians that are milky yet built to last.

Purchasers should also note that there is a definite summer calving bias which means there is an abundance of fresh milk in the sale.

The herd is cubicle housed and milked via a swingover parlour with management based on maize and grass silage fed on a TMR basis with concentrates fed in the parlour. The herd average is currently running at an excellent

8201kg 4.19%F 3.37%P cc125

With the latest milk quality showing **4.07%F 3.42%P cc82**.

This is a most genuine dispersal sale of a herd of cows with attendance and inspection can be thoroughly recommended on Tuesday 12th September. Make that trip, you won't be disappointed.
